Hairbrush	Prescription medicine	

#### Don't forget to...

- Throw out stuff in the fridge that will be gross by the time you get back
- Lock all doors and windows- set alarm
- Lock your car
- Have neighbor check the mail/feed animals
- Go shopping for missing items-in travel sizes!!!
- Put ID tags inside luggage
- Change \$40 into small bills for street vendor purchases and tips
- Put all nail files, scissors in checked luggage
- Send email to important people (I'll be out of the country...)
- Get a ride to the port
- Call mom – give her your itinerary
- Pay bills that will come due while you're gone
- Put all "necessities" in the carry-on, you may not get your bags for hours
- Double check all reservations
- Get to the port early
- Bring goodies for theme nights

#### Notes:

- I listed shampoo and soap because I can't use any old brand, that will be in the room as will a blow dryer.
- Make sure you don't pack your ID and boarding pass in your checked luggage
- You may not be able to get into your room right away, don't carry on too much
- Your bags won't arrive at your room right away, don't leave necessities in them
- After Check in stop by the Open Bar Cruise booth to figure out what you need from them
